

TERMS OF REFERENCE
KNOWLEDGE BASE MANAGER
FOR THE eHEALTH PROJECT UNDER THE MINISTRY OF HEALTH OF UKRAINE

ToR Date of Issuance:	October 17, 2018
Due Date for Applications:	November 2, 2018

PRSM is committed to providing equal employment opportunity without regard to race, color, religion, gender, sexual orientation, national or ethnic origin, age, disability or status as a veteran with respect to policies, programs and activities.

Background

The **Professionals for Reform Support Mechanism (PRSM)** provides human resource support – from managers to technical experts – to critical reform initiatives undertaken by national governmental agencies. PRSM is a multi-donor platform, which improves coordination of donor efforts for greater impact and avoids overlap of donor funding. It does not support routine work of the Government of Ukraine that is normally managed by the civil service. To do this, PRSM:

- **Selects initiatives** based on clearly defined links to reform initiatives;
- Ensures transparent **recruitment** of human resources;
- Manages the **contracting** and payment of human resources;
- Provides financial **reports** for donors;
- **Monitors** initiatives for results.

Reform Initiative

The Ministry of Health of Ukraine (MoH) has already announced the implementation of eHealth project as its priority. The Ministry seeks to establish a medical data system, which will maintain a pan-Ukrainian registry of patients, doctors and medical institutions, as well as possess data on contractual relations between them. The system will preclude healthcare actors from concluding fraudulent agreements, as well as provide invaluable statistics on diseases and prescribed treatment, which still do not exist in Ukraine to date. The Government of Ukraine (GoU) has a strong political will to launch eHealth solutions for the benefit of both its citizens and health care system. Political support has been well formulated by signing of 3 technical Memorandums by the Ministry of Health of Ukraine.
